DETAILED ACTION

1. Amendment and response filed by applicants dated May 6, 2005 have been entered and considered carefully.

2. *Reason for Allowance*

The following is an examiner's statement of reasons for allowance:

Applicants have limited the claims to the compounds which have at least two difference from the closest prior art (US 5,635,517) that the substituents on the isoindolyl ring is fixed at the 4-position and a one methyl insertion, thus are neither anticipated nor rendered obvious by the art of record because choosing a particular substitution position on an aromatic ring with further modification would not be suggested from the '517 reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
